

# ***LEARN THE SCIENCE OF SAVING!***

**Why do we often spend the money we planned on using for our future? Behavioral science shows that humans are hard-wired to act on impulse. It's so much easier to focus on the present than our future.**

## ***THE SCIENCE OF SAVING***

- 1. What are you saving for?** Picture your goal...is it a video game, tickets to a concert, an iPad, a vacation with your family, a gift for a friend, a college education, or something else?
- 2. How much do you need?** Find out the price of your goal - check a local store, online, or ask your parents. This is how much you'll need.
- 3. Deposit your savings and watch your progress.** Make small deposits along the way and watch your savings add up!
- 4. Keep your savings safe at the credit union.**

# THE SCIENCE OF SAVING™

**MYCASH MEMBERS WHO  
SAVE \$200 WILL BE  
ENTERED TO WIN AN  
APPLE WATCH!**

Keep track of your savings progress! Bring your card into the branch so we can track your deposits made throughout April. Once your card is complete, turn it in for your chance to win the grand prize!
